CANADA

## EXPLANATORY NOTE.

THE favorable reception given to our little handbook published two years ago, has encouraged us to issue a revised edition. This is presented to you in the hope that you may find it useful and that you may also become better acquainted with our work. We ask your consideration also for the advertisers whose co-operation has enabled us to distribute this booklet so widely.

---

### WHO WE ARE.

The Canadian Correspondence College, Limited (in consolidation with the Home Correspondence School of Canada, Limited), is a chartered Canadian educational institution, giving instruction by mail in a wide range of subjects. The officers and directors of this company are: Arthur C. Pratt, M.P.P., President, Toronto; Donald G. French, Secretary, Toronto; James D. Allan, Toronto; Geo. C. Creelman, B.S.A., Guelph; D. J. Gibb Wishart, M.D., Toronto.

---

### WHAT WE DO.

For many years we have been teaching successfully by mail, students in Canada, the United States, Great Britain and the Colonies all branches of Academic work taken up in the Public and High Schools and Commercial Colleges. We fit students for entrance to Model and Normal Schools and Faculty of Education in all provinces, for Civil Service and Chartered Accountancy Examinations. We give instruction in Agriculture, Engineering, Mechanical Drawing and other Technical subjects.

## REFERENCES.

The leading educators of the Dominion have endorsed our work. Among these are: Jas. L. Hughes, former Chief Inspector Public Schools, Toronto; C. C. James, former Deputy Minister of Agriculture, Toronto; M. Cummings, B.S.A., Agricultural College, Truro, N.S.; M. A. Mackenzie, M.A., Trinity University, Toronto; D. J. Goggin, D.C.L., Editor School texts for Ontario, Toronto. Financial reference: Standard Bank of Canada (Bay Street Branch).

## ORIGIN OF NAMES OF PROVINCES.

Prince Edward Island, was named after Queen Victoria's father, Edward, Duke of Kent.

Nova Scotia, was settled by a Scottish colony, under the Earl of Stirling. The name of course, is the Latin for New Scotland.

New Brunswick, was so named in 1784, after the family of the reigning sovereign of Great Britain, the House of Brunswick.

Quebec is from "Kébec," a narrowing. This is an Indian word and was given to the site of the first French settlement, because the St. Lawrence River narrows there. The province took its name from the leading settlement.

Ontario is from the Indian word "Ontario," meaning beautiful lake. The province thus gets its name from one of its principal lakes.

Manitoba is of Indian derivation. "Manitou-ba" means the passing of the Great Spirit.

Saskatchewan is an Indian word in the Cree dialect, meaning swiftly flowing water.

Alberta was named after the sixth daughter of Queen Victoria, wife of the Duke of Argyle, Louise Caroline Alberta.

British Columbia, honors Columbus, the discoverer of America, and also the Empire to which it belongs.

# Do You Take A Teacher's Magazine ?

Every progressive teacher requires to be kept in touch with :

The New Movements in Education.

The Best Methods of Teaching.

New Ideas and Suggestions for the Classroom.

The Best Books and Magazines Relating to the work of the teacher.

Notes and News Regarding the Profession.

## “THE SCHOOL”

Aims to Answer these Requirements.

It contains seventy-two pages of reading matter.

It covers the work in all grades in all the Provinces.

It deals with both Principles and Methods.

*It is published by teachers, and is supplied to teachers at cost of publication.*

*Subscriptions, \$1.25 per year.*

## NATIONAL EMBLEM OF CANADA.

Considerable doubt exists as to when the Maple Leaf was first selected as the national emblem of Canada. The tree was held in high esteem by the earliest settlers, and it is more than likely that the maple leaf was popularly accepted as an appropriate emblem long before we have any record of it. In 1806 an article appeared in *Le Canadien*, from which it would appear that Canadians had then chosen the maple. At the first meeting of the St. Jean Baptiste Society in Montreal, in 1834, the decorations were arranged with maple leaves. In 1836 it was proposed to adopt the maple leaf as an emblem. In 1860, on the occasion of the visit of the Prince of Wales, the emblem was formally adopted. In 1867, at Confederation, the maple leaf was retained.

---

## PREPARING FOR A PROFESSION.

You may intend to enter some profession, or you may be interested in some one who intends doing so. The first step towards entering any of the "learned professions," is, in almost every case, to pass the Matriculation examination. No time should be lost in taking up this work. Our students have been remarkably successful in preparing for this examination—the studying can be done in spare time; the cost of a High School course is eliminated. Thus you can follow up your regular occupation and be paving the way for entrance upon your professional course. We give instruction for full Matriculation or any subject. Fees guarantee you tuition until you pass. We shall be pleased to give any information or advice as to preparation for a profession. Write us fully regarding your present standing and what you wish to take up.

# The Teachers' Book Supply House

We make a constant and careful study of the needs of the teacher, the pupil and the school, and we supply any book published.

**Literature Texts**—Our "Oxford and Cambridge" Shakespeare is unequalled for teacher and student. Each volume contains the text of the play with notes, outlines, story of the play, sketches of characters, distinctive features of the play, examination questions, etc.

All the plays called for literature classes are published in this edition—Macbeth, As You Like It, Merchant of Venice, Hamlet, Julius Caesar, etc. Each 50 cents, post-paid.

There are also additional "Manuals" containing questions with notes and answers on the play, act by act; each 30 cents, post-paid. "Supplement" to each gives general questions on the play with answers; each 15 cents post-paid. Every teacher and student should have a complete set for the plays being studied.

**The School Library**—We give special attention to the supplying of School Libraries. No matter what the grade of your school—Public School, Continuation Class, High School, Collegiate, or College, we can supply what you need for your Library.

**Teachers' Aids and Helps**—We have aids and helps on almost every branch of school work.

Whenever you need BOOKS write to

## **CANADIAN RAILWAYS.**

When Queen Victoria ascended the throne, we had 16 miles of railway, and we were content with this until 1847, when our total reached 54 miles. At Confederation, in 1867, we had 2,278 miles; in 1885, when the North-West Rebellion took place, we had 10,773 miles. In 1896, there were 16,270 miles. In 1909 the mileage in operation was 24,104 miles. In 1912, 26,727 (or, including all tracks and sidings, 36,629) Capital invested, \$1,588,937,526. Total earnings, \$219,403,752. Operating expenses, \$150,726,539. Railways employ, 141,000 men. Annual wages, \$74,000,000. Passengers carried, 41,124,181. Freight carried, 89,444,331 tons.

## **DEPARTMENTAL EXAMINATIONS.**

Remember that we prepare you for public and departmental examinations. Send for a copy of our calendar and see our list of names and addresses of successful students. This contains names of students who have passed Nova Scotia Grade XII, Ontario Model Entrance, Normal Entrance, Entrance to Faculty of Education, Commercial Specialist, Manitoba Third Class, Second Class, First Class, Saskatchewan Third Class, Second Class, First Class, Alberta Standard VI (Grades IX and X), Standard VII (Grade XI), Standard VIII (Grade XII). Matriculation into various universities, Chartered Accountants and Civil Service. We have demonstrated again and again our ability to teach any subject of the Public or High School curriculum efficiently by our method.

## **WE PREPARE YOU.**

We prepare you by mail for the entrance examinations to these training schools in any province in Canada, or give instruction in any subjects required. Circulars giving information as to requirements for examinations will be furnished upon request.

## **The SCHOOLS OF CANADA.**

The school system of the various provinces are under control of the Provincial Governments. Examinations for entrance to High Schools, Model and Normal Schools, and Faculties of Education are held at midsummer on dates arranged each year. Information as to regulations, teachers' qualifications, departmental reports, examination papers, etc., may be had from the different provinces by addressing the following:—

Prince Edward Island—Chief Supt. of Education, Charlottetown.

Nova Scotia—Chief Supt. of Education, Halifax.

New Brunswick—Chief Supt. of Education, Fredericton.

Quebec—Supt. of Public Instruction, Quebec.

Ontario—Deputy Minister of Education, Toronto.

Manitoba—Deputy Minister of Education, Winnipeg.

Saskatchewan—Deputy Commissioner of Education, Regina.

Alberta—Deputy Minister of Education, Edmonton.

British Columbia—Supt. of Education, Victoria, B.C.

### **NORMAL SCHOOLS.**

Normal Schools for the professional training of teachers are established at these places:—P.E.I., Charlottetown; N.S., Truro; N.B., Fredericton; Que., Quebec, Montreal; Ont., Ottawa, Toronto, Peterboro, Hamilton, Stratford, London, North Bay; Man., Winnipeg; Sask., Regina; Alta, Calgary; B.C., Vancouver. Ontario also conducts Model Schools for training of Third Class professional teachers at various points during the fall term.

I am satisfied with the thoroughness of the course.—W. Ember, Buffalo, N.Y.—Mechanical Drawing.

## THE UNION JACK EXPLAINED.

The Union Jack is made up of the three crosses of England, Scotland and Ireland, and is thus truly the flag of the Union. In the early history of England the Red Cross of St. George (the upright cross of the present flag), by itself was the flag of England. When the crowns of England and Scotland were united at the accession of James VI. of Scotland to the throne of England, under the title of James the First, King of Great Britain and Ireland, the White Cross (or Saltire) of St. Andrew (the white cross running diagonally) was added to the Cross of St. George; but it was not until the Act of Union between Scotland and England in 1707, that the flag containing the crosses of England and Scotland became by law the National Flag. In 1801, after the union with Ireland, the Red Cross of St. Patrick was added (the red cross running diagonally), and thus the Union Jack was made up.

## CANADIAN PUBLIC HOLIDAYS.

The following are statutory holidays for all the provinces:—New Year's Day, Good Friday, Easter Monday, Victoria Day (May 24th, the birthday of Queen Victoria is kept as a permanent holiday in her memory), King's Birthday (June 3rd), Dominion Day (July 1st, our national birthday), Labor Day (the first Monday in September), Thanksgiving Day (date proclaimed each year by the Governor-General). If New Year's Day, Christmas Day, Victoria Day or Dominion Day fall on Sunday the next day is observed instead.

Alberta, Saskatchewan, Yukon and the Territories add Ash Wednesday and Arbor Day (2nd Friday in May).

Quebec adds: The Epiphany, Ash Wednesday, the Ascension, All Saints' Day and Conception Day.

Most towns and cities proclaim a day as Civic Holiday, each year, but this is not a bank or public holiday.

Hon. Sir Charles Tupper, Bart., called to office April 27th, 1896—Conservative.

Hon. Wilfred Laurier, called to office July 11th, 1896—Liberal.

Hon. R. L. Borden, called to office Oct. 10th, 1911—Conservative.

---

## ONTARIO'S COAT OF ARMS.

The armorial bearings of the province consist of a shield having a red cross and three maple leaves as background, with a moose deer and a red deer as supporters, a black bear as crest, and the following motto: "Ut Incepit Fidelis Sic Permanet"—"As Loyal She Began, So Loyal She Remains." Or, more freely, "Loyal in the beginning, loyal still." The idea expressed in the motto alludes to the settlement of the Province by the United Empire Loyalists.

---

## CANADIAN CITIZENSHIP.

Any alien intending to reside in Canada may be naturalized after three years residence in the Dominion, or after being in the service of the Dominion or a Provincial government for three years. Aliens in Canada may hold and transmit any property, but they are not qualified for any office or for any municipal, parliamentary or other franchise.

### **DOMINION NATIONAL PARKS.**

These comprise 10,904 square miles in British Columbia and Alberta, as follows: Rocky Mountain Park, 4,500 square miles; Yoho Park, 828 square miles; Glacier Park, 576 square miles; Jasper Park, 5,000 square miles.

### **MOUNTED POLICE.**

The total force of the Royal Northwest Mounted Police, including that in the Yukon, numbers 626 officers and men, with 536 horses.

### **EDUCATIONAL FACTS.**

Canada has nearly 1,200,000 pupils in schools and 34,000 teachers, about 8,000 university students, 124 Rhodes Scholars at Oxford. 80 per cent. of the population can write, 74 per cent. can read and write.

### **CANADA'S WATERWAYS.**

Canada has a waterway of 2,381 miles—from the north of St. Lawrence to the head of Lake Superior. The St. Lawrence system is 740 miles long, with 4,000 miles of connected navigable waters.

Canada has 6,000 miles of waterways from the St. Lawrence to the Mackenzie, with only 150 miles of a landbreak. The Mackenzie is, with its tributaries, 2,500 miles long, equal in distance from Liverpool to Halifax, draining a region three times as large as France. The Saskatchewan is 1,600 miles long; the Columbia, 1,400; the Churchill, 1,000; the Fraser and Red River, each 650 miles. The Saskatchewan basin is as large as that of the St. Lawrence.

“If I ever have a chance to influence anyone to take a course with your college, I shall do so, because I received a great deal of help when I was studying and taking the course.”  
—Pearl Marvin, Consec, Ont.

## LARGEST IN THE WORLD.

Largest nickel mines are in Canada. Largest grain elevator at Port Arthur, Ont. Largest single canal lock, Sault Ste. Marie, Ont. Largest electric power line, Hydro-Electric, Ontario. Largest grain conveying system, Montreal Harbor. Largest lift lock, at Peterboro, Ont. Highest tides in world, Bay of Fundy.

## LOOK AHEAD.

Get your eye on **THE NEXT CHANCE**. If you hold any position, fit yourself to fill the **PLACE HIGHER UP**. If you are engaged in any occupation or line of work, learn what you need to know in order to **GET MORE OUT OF IT**.

You are not likely to fall upward something better—**YOU MUST CLIMB**. Look **AHEAD**—when the time comes you can take the next chance—**IF YOU ARE FIT**. The time to fit yourself is **NOW**.

**WE CAN HELP YOU** at your own home. **WE** have for years been helping others to advance—it's **YOUR TURN NOW**, if you will take it. We teach everything from the most public and high schools, business colleges, elementary work up to the University, can give you all the instruction provided by the sides a number of special courses. Ask about what interests you.

## THE ODDS AND ENDS OF TIME.

Perhaps you say, "I would take up a course of study if I had more time." Did you ever stop to figure out how much time there is every day between your rising in the morning and getting to sleep at night that your mind is not engaged in thinking about your daily duties, or, in fact, about anything of particular value. Why not gather up those

odds and ends of time and use them in thinking about some subject of importance to you? Here is a hint from one of our successful students: "I use the lessons to mark out the path I am to follow, lest I forget the most important part. I keep a memorandum of my difficulties in a little pocket note-book. I memorize poetry, dates and clauses in History, laws in Physics, etc., when I am out walking or doing work in the garden."

---

### UNIVERSITIES AND COLLEGES OF CANADA.

P.E.I.—Prince of Wales College, Charlottetown.

N.S.—Dalhousie College, Presbyterian College, Halifax Medical College, Halifax; Agricultural College, Truro; King's College, Windsor; Acadia University, Wolfville.

N.B.—University of New Brunswick, Fredericton; University of Mount Allison College, Sackville.

Quebec—Laval University, Quebec; MacDonald College, St. Anne de Bellevue; Bishop's College, Lennoxville; McGill University, Presbyterian College, Diocesan Theological College, Wesleyan College, Congregational College, Laval University, Montreal.

Ontario—Queen's University (Theology, Arts, Applied Science, Medicine, Education), Royal Military College, School of Mining, Kingston; Ontario Agricultural College, MacDonald Institute, Guelph; Western University (Arts and Medicine), Huron College (Theology), London; University of Toronto (Arts, Medicine, Applied Science, Household Science, Forestry, Education), University College, Victoria College, McMaster University, Knox College, Trinity College, Wycliffe College, Conservatory of Music, Ontario College of Pharmacy, Royal College of Dental Surgeons,

College of Physicians and Surgeons, Women's Medical College, Ontario Veterinary College, Osgoode Hall (law), Toronto; Ottawa University, Ottawa.

Saskatchewan—University of Saskatchewan, Provincial Agricultural College, Saskatoon.

Alberta—University of Alberta, Strathcona; Alberta College, Edmonton.

B.C.—McGill University of British Columbia, Victoria and Vancouver.

---

### **THOSE WHO KNOW.**

Those who know the value of our courses are the students who have taken them and completed them. Read some of the evidence given:

"I suppose you are aware that I was successful in the recent examinations (Sub-division B, Civil Service). I have received an appointment and start work on Monday, June 30th." Steve J. Martin, 232 Laurier Ave., Ottawa, Can.

---

### **MATHEMATICS.**

For Surveying, Civil Engineering, Architectural Work, etc., a knowledge of Mathematics (Algebra, Geometry and Trigonometry) is very important. Special rates given on this combination if you need it.

---

### **SOME FIRST THINGS IN CANADA.**

The word "Canada" was first recorded by Cartier, 1536-1537.

The beaver first appeared as Canada's emblem on coat-of-arms, granted by Charles I. to Sir William Alexander, who was to found a colony in Nova Scotia.

The first newspaper was the Halifax Gazette, March 23, 1752.

The first church was built at Port Royal, in 1608.

The first bank was opened at Montreal in 1817.

The first steam railway was built in 1836, from Laprairie to St. John, in Quebec.

The first steamer appeared on the St. Lawrence River in 1809.

The first steamship crossed the Atlantic from Quebec in 1833.

The first telegraph line was built in 1846, between Toronto and Niagara.

The first law courts were held at Quebec, in 1663. Postage stamps were first used in 1851; postcards, 1871. The first electric cars were run at Toronto Exhibition in 1883, and the next year the first practical electric road was built.

---

### CANADIAN MILITIA.

Permanent corps, 3,400; active militia, 59,962; horses, 14,414.

---

### IMPORTANT CANADIAN DATES.

1497—Sebastian Cabot discovers Canada.

1534—Jacques Cartier discovers the St. Lawrence.

1608—Champlain founds Quebec.

1759—Wolfe captures Quebec.

1867—Dominion of Canada formed.

---

### OUR SPECIAL ENGLISH COURSE.

This course is specially designed for those who wish to improve their knowledge of English. The study papers are made as interesting, instructive, and enjoyable as possible, and the course planned so as to comprise a wide range of reading. It is divided into two parts, which may be taken separately.

Part I. includes: Grammar, Composition and Literature; works are selected from various authors, as Shakespeare, Tennyson, Wordsworth, Coleridge, Ruskin, etc. Twenty essays are to be written and corrected, as well as a large number of exercises on correction of errors, use of words, etc.

Part II. includes: Review of Grammar, Thorough Course in Composition and Rhetoric, including punctuation, the paragraph, the sentence, diction, properties of style, narration and description, exposition, prose, composition, versification, poetical composition, figures of speech; twelve original essays written and corrected, besides regular exercises. Criticisms given of special work. Hints on preparation of articles for publication, story writing, etc. Literature, a detailed study of dramatic and poetical selections. General Dramatic Course, History of English Literature, from early Anglo-Saxon to the present.

Do you wish to improve your knowledge of the English language and to acquire facility in speaking and writing correctly? This course has been designed for you.

Have you the creative talent necessary for story writing? It is not enough to be able to invent a plot or create characters; you must tell your story in correct and effective language. This course will teach you how to do so.

---

### THE ROYAL FAMILY.

George V., son of King Edward VII and Queen Alexandra, was born June 3rd, 1865. On July 6th, 1893, he married Princess Mary of Teck. The children of the royal family in order of age are: Edward, Albert, Prince of Wales, Prince Albert Frederick, Princess Victoria, Prince Henry, Prince George, Prince John.

## **YOUR SPARE TIME.**

**YOUR SPARE TIME** can be made **WORTH HUNDREDS OF DOLLARS** to you, if you will use it in improving your education. **NO MATTER WHERE YOU ARE** we can reach you with our instruction, and if you can read and write we can teach you. Look over the advertisements of our courses in this book and write to us about what interests you. Canadian Correspondence College, Limited, 15 Toronto Street, Toronto, Canada.

---

### **JOURNALISM.**

Learn to write for the newspapers and magazines. Our journalism course will teach you. Full instruction by mail in newspaper correspondence, reporting, editorial work, writing special articles, etc. Criticism of articles, stories, poems, etc. Write to our address to-day.

---

### **MATRICULATION.**

The doorway to the professions—the first step towards becoming a doctor, lawyer, minister, civil engineer, electrical engineer, etc.—is Matriculation. **YOU MUST PASS THIS** examination before you can begin your college course. We fit you **AT HOME IN SPARE TIME.** Write for full particulars.

---

### **LESSON HELPS.**

General study outline, questions and exercises. Price, \$1.00, postpaid.

### **WRITING AND DRAWING.**

Our correspondence courses in these subjects can be put to practical use daily in the schoolroom.

Elementary Art.—A course designed to meet the requirements of the curriculum of studies for Public and High Schools. Comprises Freehand Drawing, beginning with the simplest rules, the straight and curved line, with its applications; memory drawing; model drawing, in outline, in light and shade, grouping; drawing from plants in outline and in color, use of colors, brush; inventive illustrative drawing and sketching; practical geometry; mechanical drawing, etc.

Penmanship.—A thorough training in the principles of the subject, muscular movement, slant, formation of letters, capitals, etc. We guarantee that if you take this course and follow our instructions we can teach you to write a rapid, neat, regular hand in six weeks to three months.

## **TRAIN FOR BUSINESS.**

We give you at your own home a thoroughly practical course in bookkeeping and Business Practice. This teaches you not only to keep an ordinary set of books (single and double entry, joint stock companies, special journal and cash book, etc.), but also instructs you in the proper forms of business papers and the business methods.

In addition to this, our Commercial course trains you to calculate rapidly and correctly, to write a concise, bright business letter; teaches you a good legible style of penmanship, and gives a full grasp of the principles of commercial law. In short, it fits you for a business position. All books and supplies required included with the course. Write now for full particulars.

---

## **SHORTHAND AND TYPEWRITING.**

These subjects are necessary for anyone desirous of taking an office position. Our correspondence course in Pitman's shorthand will train you fully, and enable you to do the work of a stenographer. Typewriting, also, is necessary and we furnish practical instruction in this. Arrangements can be made by the student for the rental of a typewriting machine for practice.

---

"I am only half through my course, but I have a position here as bookkeeper and am getting \$80 a month."—Hattie H. Davis, Regina, Sask., Commercial Student.

---

## **ENGINEERING.**

Do you want to learn how to run ANY KIND OF AN ENGINE, or to prepare for Government examination for ENGINEER'S CERTIFICATE in any province? Our courses will fit you. Complete instruction by mail in

Stationary, Traction, Gas or Gasoline, Automobile, Marine and Locomotive work. Course in Arithmetic included. Write for circular, stating branches in which you are interested.

---

### **ENGINEER'S LICENSES.**

Marine Engineer's licenses are under control of the Dominion Government; all others are regulated by the Provincial Governments.

---

"I will gladly refer to your College any one wanting to study, as I honestly believe it is the best and cheapest College that a person can get acquainted with," writes Nelson McIntyre, Clive, Alta, an Engineering student.

---

### **CIVIL SERVICE.**

Our courses fit you for any of the Civil Service examinations—Preliminary, Qualifying, Third or Second Division. These examinations must be passed in order to make you eligible for positions in Postoffice, Customs Houses, Inland Revenue Service, Railway Mail Service, etc. Examinations held in May and November. Full outline of studies sent on request.

---

"You know what should be taught, and how to teach it. I recommend your course to all persons wishing to qualify for the Civil Service examinations." This is what E. J. Des Ruisseaux, Sherbrooke, Que., wrote to us after we had prepared him successfully for his examination.

---

### **CANADA'S WATER POWER.**

It is estimated that the minimum flow development of all the water-powers of Canada is 25,692,907 horse-power, of which but 486,887 has yet been developed. The largest single water-power is that of the Hamilton River, in Labrador Peninsula, with a possible

development of 9,000,000 horse-power. Niagara Falls is 168 feet in height. Its horse-power has varied from 3,818,000 to 7,033,000. Franchises have been granted to various companies for the development of 522,200 horse-power from the Falls.

---

### **AREAS OF PROVINCES, ETC.**

Alberta, 255,285 square miles; population, 374,663. British Columbia, 355,855 square miles; population, 392,480. Manitoba, 251,832 square miles; population, 455,614. New Brunswick, 27,985 square miles; population, 351,889. Nova Scotia, 21,428 square miles; population, 492,338. Ontario, 407,262 square miles; population, 2,523,274. Prince Edward Island, 2,840 square miles; population, 93,728. Quebec, 706,834 square miles; population, 2,003,232. Saskatchewan, 251,700 square miles; population, 492,432. Yukon, 207,076 square miles; population, 8,512. N. W. Territories, 1,242,224 square miles; population, 18,481.

---

### **BUSINESS COURSE.**

Arithmetic, Penmanship, Grammar, Composition, etc., taken up simply, right from the beginning. Just the course for anyone with a poor education. So plain you can't help understanding it. Anyone who has not had a good public school training should ask about this course.

---

### **MECHANICAL DRAWING.**

You can learn Mechanical Drawing and Machine Design so as to be able to design any sort of machinery, to make models and patterns, blue prints, etc., for all classes of mechanical work. This course carries you from the drawing of simple lines to the most complicated designing and structural work. Instruction in Arithmetic, and all rules and calculations included. Write for our descriptive circular.

### **ARCHITECTURAL COURSE.**

This course will teach you how to make plans for houses and buildings, how to make your own blue prints, how to do your own estimating. Handles in a practical way all the problems of the builder from the excavation to the roof. Ask for circular.

---

### **ELECTRICAL COURSE.**

Complete practical course on everything connected with power and lighting systems. All about construction and operation of dynamos, motors, power lines, etc. Working model of motor, battery, etc., supplied.

---

### **COMPLETE YOUR MATRICULATION.**

Teachers and others holding certificates covering part of the Matriculation course will find it an easy matter to complete Matriculation by correspondence. We teach Latin, French, German, or any other subjects necessary to give you full Matriculation.

---

### **SINGLE SUBJECTS.**

While we arrange to give complete courses of instruction for the various grades of teachers' non-professional examinations, and for Matriculation into University, etc., we also give, when required, instruction in any one or more subjects of any of these courses.

---

### **LANGUAGES.**

Our courses have proved remarkably successful in preparing students for examinations in Latin, French, German and Greek. If you want to study any of these, let us hear from you.

---

### **ENGLISH LITERATURE.**

Owing to the wide range of the curriculum in this subject, we have lessons on almost all the English classic selections used for school study, and can arrange to give instruction in a specially selected list of authors if this desired.

## **INTERESTING AND PRACTICAL.**

W. P. Armstrong, Saskatoon, Sask., a contractor, who enrolled for our Architectural course, writes: "Re your course, I may say that I find it both interesting and practical, and a splendid thing for anyone who wishes to make himself familiar with everything that he possibly can in connection with his trade. No matter how much a person knows about the trade, there is always something that may have escaped his notice, and a course such as yours touches on all these points, and brings them to one's notice in such a way as to impress them firmly."

---

### **EXTRACTS FROM RECENT LETTERS.**

These are extracts from letters received from students in various courses, and from different provinces:—

I am very much pleased with the lessons.—Annie Hind, Deaconess Training School, Toronto.—Matriculation English and History.

---

The information I have received will be of very material benefit to me.—Chas. S. Boyd, Goodwood, Ont.

---

I have received lasting benefit from my studies.—Alison W. Palmer, Cornwall, Ont.

---

I received my diploma, and am well satisfied with the course.—H. J. McIntosh, Milton Brae, N.S.—Stationary Engineering.

---

I am more than pleased with my progress in Algebra and the interest of the College in my work.—Frank E. Kellberg, Plum Coulee, Man.

---

I think your papers are fine, and just what I need to ensure good work and give confidence in myself.—Hilda Oppen, Baden, Ont.—Normal Entrance.

I am well satisfied with the course.—F. A. Beattie, Dauphin, Man.—Matriculation work.

---

I find my course very good in every respect.—G. S. Moir, Ottawa, Can.—Matriculation subjects.

---

I am very much pleased with the course. I think it is worth twice the price I paid for it.—Albert J. Henry, Imhoff, N.B.

---

I have been told by fellow-teachers of the benefit they have derived from your courses.—Norman Harkness, Pearcey, Ont.

---

In all my past studies, I never had the subjects more fully explained or questions more thoroughly answered than during my correspondence course.—Alex. Northey, Fenelon Falls, Ont.—Mechanical Drawing.

---

I think that the study questions are very suggestive, and cover the work thoroughly. In fact, I regard them as the most valuable feature of your lesson papers.—Harry Higham, Caistor Centre, Ont.—Normal Entrance.

---

I find that your lesson papers open up all the subjects and make the difficult places easy.—Jas. Shankland, Toronto.—Matriculation.

---

Your methods of teaching the different subjects is very congenial, and, so far, I have found the lessons very interesting.—Almeda Brown, Thomasburg, Ont.—Normal Entrance.

---

Your lessons and assistance are all that could be desired.—Ethel A. Imerson, Sevenpersons, Alta.—Grade XII., Alta.

---

### **ENROLLED AGAIN.**

The best evidence of the efficiency of our instruction is given by our students—every

term a large number enroll with us for new courses of study; in fact, almost every month finds some of our former students taking up new work with us. Our calendar will give you the names and addresses of a number of these students. Send for it and get evidence that will show that some of our correspondence courses would be of benefit to you.

---

### **GET STARTED NOW.**

Some course of study, some subject on our list, will, no doubt, be helpful to you. There may be some examination you wish to try. In any case, the sooner you get started, the sooner you will derive benefit from your studies.

Being prepared for the chance which may come your way is the secret of advancement. Now is the time to prepare yourself. Remember, all our students study in their spare moments—it may be two hours a day, or it may be only one hour, or half an hour, or even a few minutes. Every minute given to study helps to master a lesson, and every lesson mastered is a step towards your final success.

It doesn't matter where you are. We have students doing good work in Great Britain, in South Africa, and in India. Students in Newfoundland and Vancouver Island make just as good progress by our method as students in our own city.

Write to us NOW, giving full particulars as to your present education, and what you wish to do. We will give you full information regarding our courses of study, and any advice or suggestions we can offer. This will place you under no obligation to take a course with us, but when you find out what we have done for others we feel sure that YOU will be anxious to GET STARTED on one of our courses. Write NOW.
